DETAILED ACTION

This is the fifth office action for U.S. Application 09/600,209 for a Material Support Stand filed by Brad Neilson on July 12, 2000. Claim 13 is pending. The indicated allowability of claim 13 is withdrawn in view of the newly discovered reference(s) to U.S. Patent 3,854,588 to Kinard. Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 13 is rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent 3,854,588 to Kinard. Kinard discloses an equipment support stand that could be used on an underground mining machine. The stand has a base (6) adapted to stand on a surface of the machine adjacent to an apparatus, an upstanding rack (16, 18, 19, 21) mounted to the base, the rack being shaped and configured to hold and/or support items, and a plurality of clamps (11, 12) which incorporate a hook formation adapted to pass through an aperture in the surface of the machine and hook beneath the surface to thereby rigidly fix the stand to the surface. The hook formation is tensionable by an over center locking lever (8) connected thereto, which, when tensioned, will tightly clamp the stand to the surface.

Response to Arguments

Applicant's arguments with respect to claim 13 have been considered but are moot in view of the new ground(s) of rejection.
